PV® 215

Description

The PV 215 is a quasi three-way speaker system based on dual 15" heavy duty woofers and an RX14™ titanium diaphragm dynamic compression driver mounted on a 60° x 40° coverage constant-directivity horn. The lightweight-yet-rugged, carpet-covered trapezoidal enclosure facilitates portable use for live music or speech sound reinforcement, as well as music playback.

A full-length, black powder-coated steel grille provides driver protection and a professional appearance.

The PV 215 speaker system is rated at 700 Watts program power handling, and the full crossover network includes tweeter protection for clear, punchy sound and excellent long-term reliability. Two 1/4" phone jack input connectors make hook-up a breeze.
